In fact our company was founded in 1990 and since its establishment was involved in trading and execution of construction works in the country and abroad. In recent years, the main focus of our business is focused on trading of consumer goods. In our assortment we have large variety of products, primarily intended for home use e.g.: glasses, cups, vases, decorative details, clocks, artificial flowers, dishes, kitchen linens, linens for the bedroom and bathroom, children's bicycles, toys etc. Our main suppliers are currently from China, and that we are in the process of expanding the product range and sales network, we are looking for new business partners from Turkey. The primary goal for us to get in touch with the manufacturers or wholesalers of house textiles, underwear and socks due to the proven quality of Turkish textile products. Apart from textiles we are very interested parties, and for cooperation with manufacturers or wholesalers of dishes made of ceramics and glass, as well as all others who have in its range of wire products.

In the hope that we'll achieve high-quality contacts with Turkish companies, in advance thank you
