ECUADOR

PROFILE

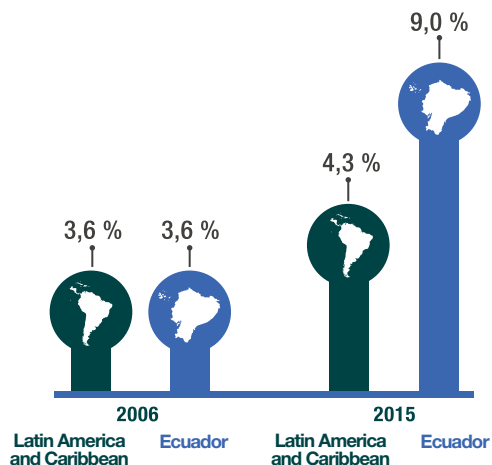

Yearly average GDP growth at 4.2%,
higher than LATAM at 2.8%

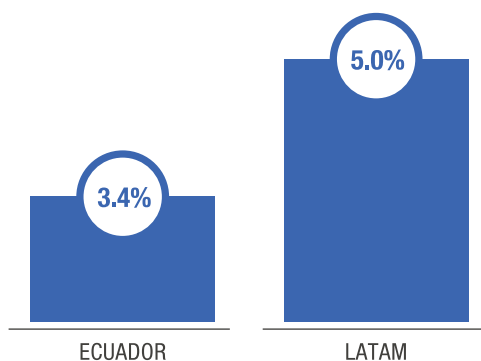

ECUADOR: Leading Social Investment in Latin America

Central government Social Investment
(Percentage of GDP)

The largest investment in the history of Ecuador

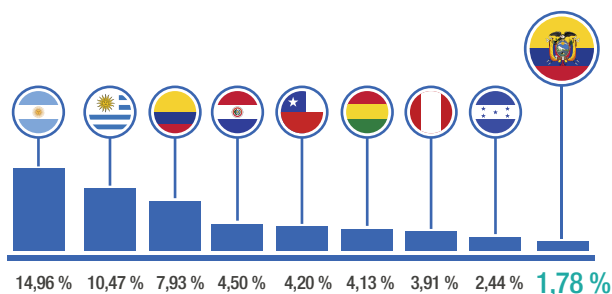

Controlled Inflation Rate, lower than Latin America (2015)

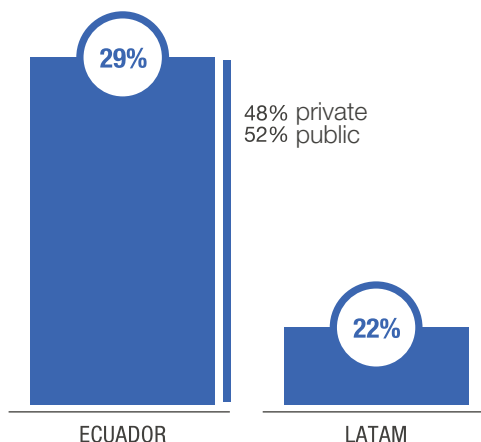

Ecuador Macroeconomic Reference

Inflation Rate April 2016

High Investment in Ecuador versus LATAM as % of GDP (2015)

Strategic and Competitive infrastructure

USD 329 millions

Airports renewed and operated at the national level Airports investment in 2007 -2015, which are 2 new airports, 10 refurbished, renovated with air navigation systems optimization at airports nationwide.

USD 1,245 millions

With public investment in 6 multi-purpose Project of irrigation control and floods.

USD 5,900 millions

In hydroelectrical plants investment until 2015.

In 2017 is expected to have 8768 MW installed capacity.

USD 8,000 millions

With a public investment in road network.

9,200 km of new highways.

60,000km

Of optical fiber cable. ITC development presents a growth rate of 75% with respect to 2007.

Social - Political

Social Development

Reducing poverty by 23% (incidence per income),
11% reduction of inequality (Gini index)

Human Talent Development

More Ecuadorians entering higher education, reaching 18,645 scholarships given, (period 2007 – 2015), and investment of 2% of the GDP in scholarships for forth level education.

INVESTMENTS

INCENTIVES FOR NEW INVESTMENTS

Income Tax:

5 year exemption for new enterprises (priority sectors, outside Quito or Guayaquil).

Up to 12 year exemption for selected prioritized sectors.
17% income tax in Special Economic Development Zones (SEDZ).

Double tax deduction of depreciation costs of productive fixed assets, for 5 years (within Quito or Guayaquil)

10% reduction of the Income Tax rate on profits reinvested on acquisition of new productive assets.

ZEDZ:

Exemption from tariffs and customs duties for imported merchandise and 0% VAT for imported goods.

PRIORITY SECTORS

Productive Matrix Change

Petrochemical

Fresh, frozen and industrialized food

Agroforestry chain and processed products

Biotechnology and applied software

Foreign trade logistics services

Metalworking

Renewable energy

Tourism

Pharmaceutical

Import Substitution

Radios, TVs and mobile phones

Chemical products

Ceramic products

Garments and textiles

Leather footwear

Home appliances

Basic chemical substances

Pesticides and agricultural products

Soaps, detergents, perfumes and toilet preparations

Cement production

INVESTMENT CONTRACT BENEFITS

Stability over on tax incentives for up to 15 years, renewable once (maximum validity 30 years).

Available for investments of more than USD 1 million which generate new employment.

Once the investment contract is signed, the company could request a reduction of customs duties for imported capital goods.

Disputes may be submitted to international arbitration.

INCENTIVES FOR FINANCING AND INVESTMENT

For term deposits and fixed-income instruments longer than 1 year:

- No Income Tax on profits and capital
- No currency outflow tax on money transfers (profits and capital)

For external financing operations from financial or nonfinancial institutions longer than 1 year:

- No income tax retention on interests
- No currency outflow tax on money transfers (interests and capital).

INCENTIVES FOR PUBLIC PRIVATE PARTNERSHIPS (PPP)

Principals characteristics:

Shared risk between the public and private parties.

Financed totally, or partially, by the private party.

Covers the whole life cycle of the project.

Investment is recovered by final users' payments, deferent payments by the state, or both of them.

Incentives:

Income Tax exemption for 10 years, from the first year of operations.

Currency Outflow Tax exemption (5 %) on imports, service payments, financing and dividends.

Exemption from customs duties and VAT on imported products.

Legal stability on various aspects affecting the investment, and on tax incentives.

INCENTIVES OF THE ORGANIC LAW OF SOLIDARITY AND CITIZEN CORESPONSIBILITY

Income Tax

Productive Investments: Exoneration for 5 years

Tourism Sector: Up to 10 years of exoneration

Financial Institutions: 2 year exemption and reduction in the value of advance on income attributable to loans granted for affected areas and reduction in the value of the advance income tax 2016, in proportion to the amount of loans granted from of 16 April 2016 until 31 December of the same year.

Foreign Trade Tax

Tax exemption Remittance Tariffs and imports in favor of taxpayers who have suffered an economic involvement in productive assets intended for production processes or service delivery (until May 2017).

Finance Incentives

The Ministry of Finance, with the resources obtained through solidarity contributions may pre-cancel investments, invest or transfer such resources for loans granted by financial and non-financial institutions.

An aerial night photograph of a multi-lane highway winding through a rugged, mountainous landscape. The road is illuminated by warm yellow lights, creating a glowing path through the dark terrain. The surrounding hills are steep and rocky, with some patches of green vegetation visible. In the distance, a small town or city is visible with its lights reflecting on the valley floor. A blue rectangular box is overlaid on the right side of the image, containing the text 'PROJECT CATALOGUE' in white.

WATER

Secretaría del
Agua

Empresa
Pública
del Agua

The adequate availability and quality of water is crucial for national development, and a necessary condition to maintain the population in good health and welfare conditions. Therefore, the supply and provision of water to meet the demand of 14 million Ecuadorians is an imperative priority for the Government of the Citizen's Revolution.

4 Large multipurpose projects which will use water resources with an integrated management approach, will benefit:

600 THOUSAND
ecuadorians benefited

66 574 Ha
for irrigation water

2,3 MW
for power generation

- Allow regulation of water resources.
- Ensuring the availability and supply of water to communities.

Water Public Company

Vision: "By 2017 the company will drive the optimization of the management model of water resources through the provision of specialized services in technical support, billing and project Management improving the result of indicators of efficiency".

Web page: <http://www.empresaagua.gob.ec/>

Water Secretariat

Vision: "The National Secretariat for Water Management ensures the fulfilment of the rights enshrined in the Ecuadorian Constitution in regards to the access and fair and equitable use of water through a comprehensive and integrated management of water resources."

SANTA ELENA AQUEDUCT HYDRAULIC PLAN (PHASE)

Pumping stations, channelings and reservoirs

Model description:

Sustainability of infrastructure and service.

- State provides infrastructure of irrigation pressure in the area of influence
- The investor shall provide operation and maintenance (O&M) and network optimization of the entire system.

Objective: Phase II will ensure continuity and effectiveness in the provision of raw water to the area of influence of the PHASE and its delivery for human consumption and irrigation. It will benefit 565,000 inhabitants.

Return scheme: A strategic alliance is proposed to sustain water infrastructure (long-term contract includes O&M). Rates per use and exploitation of water.

Investment:

PHASE I*: \$166.25 MM, PHASE II: \$322.98 MM

***Construction Phase I:** China International Water & Electric Corp. CWE.

***Supervision Phase I:** Changjiang Institute of Survey, Planning, Design and Research CISPDR

Investment: USD 450.26 MM (civil works), USD 15 MM annual O&M.

Type of investment:

Strategic alliance

Location:

Guayas and Santa Elena provinces

Implementation model:

The state provides infrastructure.

WATER TRANSFER DAULE-VINCES (DAUVIN)

Closing works and channelings by gravity

Description of the model:

Integrated productive development.

- The State contributes with infrastructure covering 70% of irrigation in the area of influence.
- The investor shall contribute with complementary infrastructure for production, operation, and maintenance.

Objective: The expansion from 115,000 to 169,000 hectares will allow distribution of continuous, safe water to all the hydrographic system for irrigation during the summer and ensure agricultural production throughout the year.

MULTIPURPOSE TAUHÍN

Dam, pressurized pipe network system, and channel lining

Description of the model:

Integrated productive development

- The State contributes with infrastructure covering 63% of irrigation in the area of influence.
- The investor contributes with optimization of the network, operation and maintenance (O&M) of the entire system.

Objective: Water supply to 75,129 inhabitants in cantons of Arenillas and Huaquillas. The dam is operating and the project consists in the optimization of 5,000 hectares for irrigation and incorporation of 3,000 new hectares. The profile includes a 2 MW hydroelectric plant.

Return scheme: A strategic alliance is proposed to sustain water infrastructure, (long-term contract includes O&M). Rates per use and exploitation of water.

Investment:

USD 95.34 MM in civil works, USD 0.85 MM annual O&M.

Type of investment:

Strategic alliance

Location:

El Oro province

Implementation model:

The state provides infrastructure.

PUYANGO MULTIPURPOSE PROJECT

Hydraulic Works to benefit the populations located nearby Puyango river, in the cantons of Santa Rosa, Arenillas, Las Lajas, and Huaquillas

Project Description:

Development of Puyango Earth-Dam (Maracabeli), irrigation and drainage, Puyango hydroelectric plant, water supply system for human consumption, and flood control systems.

Objective: Allow the overall watershed management of Putumayo river (control of water for irrigation, drinking, flood control, hydropower generation) .

Estimated investment:

Design: USD 26 MM; Construction: USD 750 MM

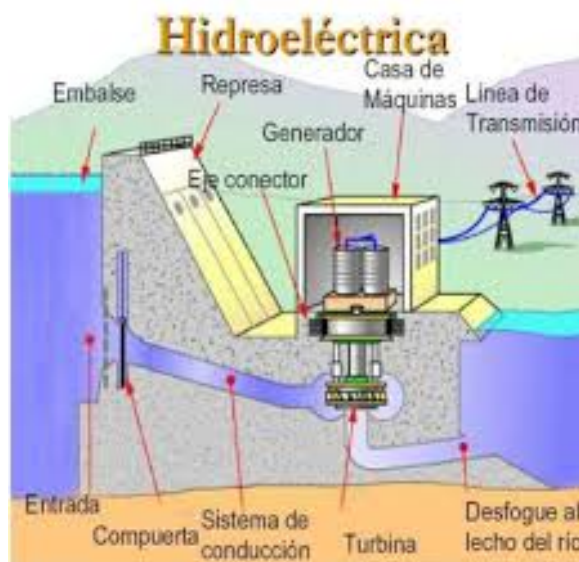

Investment model:

Strategic Alliance

Secretaría del
AguaEmpresa
Pública
del Agua

Location:

El Oro province

BASIC INDUSTRIES

The basic industries are based on the responsible use of natural resources (raw materials) that are transformed into intermediate products that are chaining source to generate growth and added value in the intermediate and final industries.

It is one of the pillars of the strategy for change of the productive matrix . Its implementation will generate an acceleration in economic growth and support to overcome the major social challenges the country is facing.

They will be located in development centers are based on the optimization of logistics infrastructure, transport and services, existing and/or implementation needed.

BASIC INDUSTRIES PROJECTS

Nº	Projects	Location	Investment amount (Millions of USD)
1	Repair shipyard	Guayas - Posorja	203,00
2	Shipyard for Offshore Support Vessel Class boats	Guayas - Posorja	102,00
3	Pulp plant	Guayas y Santo Domingo de los Tshachilas (TBD)	2.800,00
TOTAL			3.105,00

PAPER PULP PLANT

Implementation and development of forestry and paper pulp plant

Project description:

The project has two components:

- Creation of a commercial forest with 125k hectares identified.
- Implementation of industrial plant for pulp wood production.

Objective: Implementation of forest species (eucalyptus urograndis) in order to supply 4 million m³/year of wooden log for a pulp plant (BHKP) with production capacity of 1 million tons per year.

Estimated investment:

Implementation of forest: USD 800 MM.

Implementation of pulp mill: USD 2,000 MM.

Investment model:

Direct investment.

Location:

78% concentrated in La Concordia -Guayas and Santo Domingo de los Tsachillas Province.

Ministerio
de Industrias
y Productividad

Implementation model:

Public Private Partnership.

SHIPYARD FOR OFFSHORE SUPPORT VESSEL (OSV)

Shipyard for OSV class boat building (Offshore Support Vessel)

- Shipyard development project for the construction of two PSV ships yearlong.
- Project counts with pre-feasibility studies.

Objective: Shipyard implementation for attending demands for fishing fleet and merchant navy.

Estimated investment:

USD 102.0 MM.

Location:

Posorja, Provincia del Guayas

Ministerio
de Industrias
y Productividad

Implementation model:

Strategic partnership.

REPAIR SHIPYARD

Shipyard for repair service and construction of ships.

Project description:

- Shipyard development project for the repair and construction of ships up to 120 m in length.
- Production capacity: 133 repairs and 2 buildings per year.
- It has pre-feasibility studies.

Objective: Implementation of an offshore shipyard for activities repair, maintenance services and construction of fishing, merchant and navy vessels.

Estimated investment:

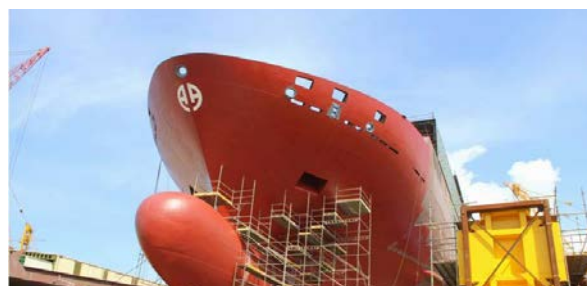

USD 203.0 MM.

Location:

Posorja, Provincia del Guayas

Ministerio
de Industrias
y Productividad

Implementation model:

Strategic partnership.

LOGISTIC INFRASTRUCTURE

Ecuador is the gateway to the Andean market with a population of over 100 million.

Ministry of Transport and Public Works MTOP, seeks to contribute to national development through the formulation of policies, regulations, plans, programs and projects to ensure a National Intermodal and Multimodal Transport, based on a international quality transport network standards, aligned with economic, social, environmental guidelines and the national development plan.

10 renewed and 13 operating nationwide airports, of which 4 are international ones.

Ecuador has more than **966 km. state railways**, linking Highlands and Coastal regions and is mainly used for tourism purposes.

The **port system** composed of seven state ports and ten private docks, specialized in general cargo and oil, the main ones are: Guayaquil, Manta, Bolívar.

Web page:

<http://www.obraspublicas.gob.ec/>

Fluvial Transportation: Ecuador has several navigable rivers, such as: Guayas River and Napo River, which is a waterway that is part of Manta-Manaos axis.

LOGISTIC INFRASTRUCTURE PROJECTS

Nº	Projects	Location	Investment Amount (Millions of USD)
1	Highway Sto. Domingo - Jujan	Provinces of Santo Domingo de los Tsáchilas and Los Ríos	1,467.00
2	Highway Naranjal – Río 7	Provinces of Guayas and El Oro	461,00
3	Manta Port operation	Province of Manabi	175,00
4	Manta Airport Operation	Province of Manabi	-
5	Santa Rosa Airport Operation	Province of El Oro	-
6	Santo Domingo de los Tsáchilas Logistics Platform	Province of Santo Domingo de los Tsáchilas	40,00
TOTAL			2.143,00

HIGHWAY SANTO DOMINGO - JUJAN

Project description:

- The highway is located between the towns of Sto. Domingo - Quevedo - Babahoyo - Jujan, with an approximate length of 214 km.

Objective: Improve connectivity between provinces, with a highway capacity, improving quality standards and land transport security.

Estimated investment:

USD 1,467.0 MM.

Investment model:

Direct.

Location:

Provinces of Santo Domingo de los Tsáchilas and Los Ríos.

Implementation model:

Public Private partnership. 30-year concession.

HIGHWAY NARANJAL – RÍO SIETE

Project description:

- The highway between the localities of Naranjal – Río Siete, part of the route Guayaquil – Machala, with an approximate length of 50 km.

Objective: Improve connectivity between provinces, with the objective of providing better walkability and an optimum level of service, of around 12 thousand users who pass daily through this route.

Estimated investment:

USD 461 MM.

Investment model:

Direct

Localización:

Provincias de Guayas y El Oro.

Implementation model:

Public Private Partnership. 30-year concession.

MANTA PORT OPERATION

Modernization and operation of Manta Port

Project description:

- Multipurpose port with capacity for handling all kinds of loads.
- It is the closest port to Asia on the West Coast of South America.
- It has a natural depth of 12 meters and a dock of 110 ha.

Objective: Increase traffic and operational capacity of the port, as well as the quality and efficiency of port services.

Estimated investment:

USD 175.0 MM.

Investment model:

Direct

Location:

Manta, Province of Manabí

Implementation model:

Public Private Partnership. 40-year concession

MANTA AIRPORT OPERATION

Development, management and operation of Manta Airport

Project description:

- Runway: 2,852 m x 45 m.
- Passenger terminal: 2,465 m² (350 pax).
- Weekly frequencies:
 - National: 29
 - International: 3

Objective: Enhance the airport with new routes and more commercial operators, increasing the flow of passengers.

Estimated Investment:

Open to proposals for the development of Manta airport.

Investment model:

Direct

Location:

Manta, Province of Manabí

Ministerio
de Transporte
y Obras Públicas

Implementation model:

Public Private Partnership.
Granting of administration and operation.

SANTA ROSA REGIONAL AIRPORT

Project description:

- Regional Airport with runway 2,470mx45m, terminal of 4,803 m² and 200 pax capacity in rush hour. It has all the radio navigation aids and runway lighting.

Objective: Enhance the airport with new routes and more commercial operators, increasing the flow of passengers.

Estimated Investment:

Open to proposals for the development of Santa Rosa airport.

Investment model:

Direct.

Location:

Santa Rosa, Province of El Oro.

**Dirección General
de Aviación Civil**

Implementation model:

Public Private Partnership.
Granting of administration and operation.

SANTO DOMINGO DE LOS TSÁCHILAS LOGISTICS PLATFORM

Project description:

- Public Logistics Platform of Ecuador, located in the most important logistics hub within the country. Specialized area with infrastructure and value-added services to the load.

Objective: Develop, manage, and administer the logistics and Connectivity Platform, to provide quality services, driving the transformation of the productive matrix and economic development of the province and the country, where different actors coordinate their actions to benefit the competitiveness of products that make use of the infrastructure.

Estimated investment:

USD 40.0 MM.

Investment model:

Direct

Location:

Province of Santo Domingo de los Tsáchilas.

Implementation model:

Public Private Partnership – Concession no less than 20 years.

INDUSTRIAL

The Ministry of Industries and Productivity (MIPRO), is in charge of formulating and executing public policies, for the transformation of the industrial specialization pattern, which has to aim favorable conditions for the Good living.

Coordinated by:

Ministerio Coordinador
de **Producción, Empleo
y Competitividad**

Website: <http://www.industrias.gob.ec/>

INDUSTRIAL PROJECTS			
Nº	Projects	Location	Investment Amount (Millions of USD)
1	National Center for Engineering Materials and Matrixes	Province of Imbabura	28,0
2	Multipurpose Irradiation Plant	To be defined	28,0
3	Industrial Eco-Park Project	Province of Tungurahua	475,80
4	Manufacture of pottery products	Province of Loja	1,00
5	Biogas plant	Los Ríos, Guayas, Manabí, Pichincha, Tungurahua e Imbabura	1,00
TOTAL			533,80

NATIONAL CENTER FOR ENGINEERING MATERIALS AND TOOLING

Construction of Materials National Center

Ministerio
de Industrias
y Productividad

Project description:

- Implementation of infrastructure for the supply of technology services.
- Development of two multipurpose plants.
- Technical assistance for 8400 Metalwork and smelters .
- Annual training to 718 students and workers.
- The project counts with an elaborated profile.

Objective: Development of infrastructure for the supply of technology services.

Investment model:

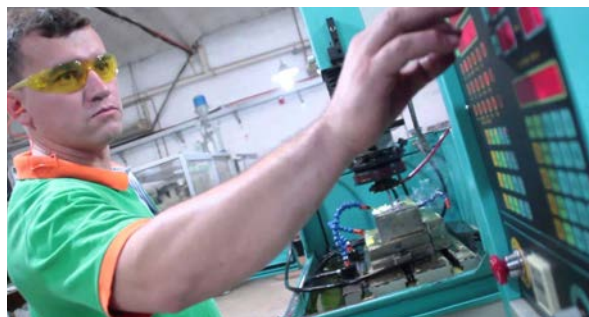

USD 28.0 MM.

Estimated investment:

Direct

Location:

Yachay, Province of Imbabura.

Implementation model:

Public Private partnership.

MULTIPURPOSE IRRADIATION PLANT

Construction of a multipurpose irradiation plant

Project description:

- Development of multipurpose irradiation facility for food safety.
- Pre-feasibility studies.

Objective: Improve food safety standards for export agro products.

Estimated investment:

USD 28.0 MM.

Investment model:

Direct

Location:

To be define.

Implementation model:

Public Private Partnership.

INDUSTRIAL ECO-PARK PROJECT

Eco-Parque Industrial y de innovación tecnológica.

Project description:

- Starting up the Eco-Industrial Park and technological innovation for SMEs in the province of Tungurahua.
- Industrial development strategies.
- Technological innovation for SMEs in the province.
- It has feasibility study and design.

Objective: Reactivate the economy of the industrial sector through processes that generate added value.

Estimated investment:

USD 475.8 MM

Investment model:

Direct

Location:

Ambato, Province of Tungurahua

Implementation model:

Public Private Partnership.

MANUFACTURE OF POTTERY PRODUCTS

Production of ecological tiles

Project description:

- Manufacture of ceramic products with advanced technology and selected clays of the highest quality, existing in the province of Loja.

Objective: Acquiring new machinery, for the purpose of expand their production capacity and improve the quality of their products.

Estimated investment:

USD 1.0 MM.

Investment model:

Direct

Location:

Catamayo, Province of Loja.

Implementation model:

Joint Venture , open to negotiations.

BIOGAS PLANT

Design, development and implementation of biogas plant for energy generation

Project description:

- Biogas plant will generate 30 direct employment opportunities
- Elimination of toxic gases and greenhouse effect.
- Use of the gas in double intention for energy and warming

Objective: Generate a new source of clean energy
The residues of the production can be re-used for organic fertilisers.

Estimated Investment:

USD 1.0 MM

Investment model:

Direct

Company:

DEG Cía. Ltda.

Location:

Los Ríos, Guayas, Manabí, Pichincha, Tungurahua e Imbabura.

Implementation model:

Joint Venture (up to 35 % of company shares).

AGROINDUSTRY

The agroindustry sector in Ecuador is quite broad, several products can be highlighted, mainly for local consumption as corn, rice and sugar ; while the main products of agribusiness for export include oil palm and broccoli.

1.46 MILLION HECTARES

used for permanent crops

SKILLED LABOR

37.956 professionals
in the agricultural area properly skilled.

0.91 MILLION HECTAREAS

used for seasonal crops.

The Ministry of Agriculture, Livestock, Aquaculture and Fisheries (MAGAP), encourages productive joint initiatives with the aim of incorporating competitive conditions in a “ win-win situation”.

ECUADOR SOIL AND CLIMATE

- Strategically located in the middle of the world (Zero latitude from the equator).
- Mega -diverse climate with more than 81 microclimates.
- Located in one of the most productive agricultural areas in the world.

Coordinated by:

Ministerio Coordinador
de **Producción, Empleo
y Competitividad**

AGROINDUSTRY PROJECTS			
Nº	Projects	Location	Investment Amount (Millions of USD)
1	Fish farming	Provinces of Esmeraldas Manabí, Santa Elena	16,00
2	Production Center of Fish Seed and Mollusks	Province of Santa Elena	3,60
3	Oyster Farming	Provinces of Esmeraldas Manabí, Santa Elena	0,09
4	Packaging plant	Province of Manabí	0,06
5	Growing grapes	Province of Santa Elena	3,70
6	Expansion of avocado crops in 10,000 or 300 hectares	Province of Santa Elena	2,50
7	Food products based on soybean, quinoa and chia	Province of Loja	0,48
8	Semi-finished and finished cocoa products Plant	Province of Guayas	1,40
9	Banana flour project	Province of Guayas	1,60
10	Agricultural Gathering Centers	Province of Manabí	1,2
TOTAL			31,17

FISH FARMING

Fish farming project in sea cages

Project description:

- Species: Huayaipe, Pargo y Cobia.
- There are 82,600 ha. identified for growing.
- The concession area is up to 40 ha.
- The production is 2,900 T/year in a 24 cages crop.
- 95% of production is for export.

Objective: Development of mariculture in the country, through fish farming in sea cages.

Estimated investment:

USD 16.0 MM.

Investment model:

Direct

Location:

Provinces of Esmeraldas, Manabí, Santa Elena.

Implementation model:

Concession up to 20 years (extendable).

PRODUCTION CENTER OF FISH SEED AND MOLLUSKS

Construction of a production center of fish seed and mollusks

Project description:

- Final study for the production center design and pre-feasibility.
- Projected sales: USD 9.8 MM per annum.

Objective: Permanent supply for mariculture companies, the fish seeds and mollusks, in order to avoid importation.

Estimated investment:

USD 3.6 MM.

Investment model:

Direct

Location:

Parish Colonche, Province of Santa Elena.

Implementation model:

Public Private Partnership. Concession for 10 years.

OYSTER FARMING

Oyster farming project in marine areas

Project description:

- 130,000 ha. identified for growing.
- The concession area is up to 40 ha.
- The production capacity is 521,216 units/year.
- The projected sales are USD 181,549/year.

Objective: Develop commercial production of Pacific oyster farming, in suspended systems.

Estimated investment:

USD 97,800

Investment model:

Direct

Location:

Provinces of Esmeraldas, Manabí, Santa Elena.

Implementation model:

Concession up to 20 years (extendable).

PACKAGING PLANT

Implementation of eviscerated plant

Location:

Puerto Lopez, Province of Manabí.

Project description:

- Develop a plant to eviscerate fish in Puerto Lopez.
- Pre-feasibility studies.

Objective: Increase production capacity to 120 tonnes per year, benefiting the economy of the 6 artisanal fishermen associations.

Estimated investment:

USD 600,000

Investment model:

Direct

Implementation model:

Public Private Partnership.

GROWING GRAPES

Rueda Group is an international organization, with more than 12 years in the market, dedicated to the import, export and commercialization of fruits, meat, garlic and dried beans.

Project description:

Expansion of grape cultivation of "Agricola Pura Vida" in modules of 50 Hectares.

The project is based on the growth of the variety

- ARRA15 (green seedless).

The country's privileged geographic location

- allows the company to schedule their crops in any month of the year.
- Prefeasibility Studies.

Objective: Worldwide exportation and replace local imports by leveraging on the commercial advantages that appear due to the seasonality of the major producing countries.

Estimated investment:

USD 3.7 M for each module of 50 Hectares.

Investment model:

Strategic Alliance

Location:

Province of Santa Elena.

Implementation model:

Partnership (up to 49% of company shares), Joint Venture, Venture Capital.

EXPANSION OF AVOCADO CROPS IN 100, 200 OR 300 HECTARES

Development of Hass avocado crops

Project description:

- Expanding Hass avocado crops in 100 Hectares.
- Grupo Rueda maintains one of the largest crops of Hass avocado in the country.

Objective: Expanding Hass avocado harvest to supply the international market during the months of April to June (month of higher prices due to seasonality of major producers).

Estimated investment:

USD 2.5 MM.

Investment model:

Direct investment.

Location:

Province of Santa Elena.

Implementation model:

Partnership (% of shares open to negotiations), joint venture, venture capital.

FOOD PRODUCTS BASED ON SOYBEAN, QUINOA AND CHIA

Soyard is a company that produces and develops healthy and nutritional products and beverages.

Description del Proyecto:

Strategic Alliance

Project description:

- Implementation of production factory of nutritional and functional food products based on soybean, quinoa and chia.
- Estimated production capacity of 120,000 units per month.
- Pre-feasibility studies.
- Generation of 25 direct jobs and 500 indirect jobs.

Objective: Develop and diversify different nutritional food products that complement a daily diet and change the local productive matrix.

Estimated investment:

USD 483,769.

Location:

Province of Loja.

Implementation model:

Partnership (up to 33 % of company shares), Joint Venture Business Angel.

SEMI-FINISHED AND FINISHED COCOA PRODUCTS PLANT

The Union of Peasant Organizations of cocoa in Ecuador UNOCACE is an organization of producers of cocoa that brings together 927 small national producers of fine aroma cocoa.

Location:
Province of Guayas

Project description:

- Implementation of a plant for the production and commercialization of national fine aroma cocoa and its derivatives with the support of the storage center of UNOCACE.
- An estimated annual production of 900mt of cocoa.

Objective: Produce and commercialize semi-finished products and chocolate of excellent quality in order to export to international markets.

Estimated investment:

USD 1.4 MM.

Investment model:

Strategic Alliance.

Implementation model:

Partnership (up to 50 % of company shares), Joint Venture Business Angel

BANANA FLOUR PROJECT

Implementation of a banana flour processing plant

Location:
Province of Guayas

Project description:

- Implementation of a banana flour processing plant estimated 1,500 tons per year.
- Pre-feasibility studies.

Objective: Development of the banana industry through the generation of added value.

Estimated investment:

USD 1.6 MM.

Investment model:

Direct

Implementation model:

Associative participation with producers.

AGRICULTURAL GATHERING CENTERS

GOBIERNO AUTÓNOMO
DESCENTRALIZADO MUNICIPAL DE
PORTOVIEJO

Project description:

- Implementation and construction of two product gathering rural centers which are part of the national trading system to optimize the farming production of the Portoviejo County.
- Colón gathering center: for the production of citrus.
- Riochico gathering center: for the production of vegetables.
- Articulation for the processing and industrialization with the Industrial, Agricultural and Logistic of the Portoviejo County.

Objective: Optimize the commercialization of the main products of the Portoviejo County.

Estimated investment:

USD 1,2 MM

Investment model:

Direct.

Location:

Colón y Riochico Parish, Province of Manabí.

Implementation model:

Public Private Partnership.

AGROFORESTRY

 Ministerio
del Agricultura, Ganadería,
Acuacultura y Pesca

Given its geographical location and climatic diversity, Ecuador is a forest paradise, with availability of suitable land and strategic location in relation to demanding markets.

The sector has special incentives through the forest incentive program. These incentives consists in a non-reimbursable economic transfer, that the Ecuadorian State delivers to disburse and/or reimburse part of the costs of establishing and maintaining forest plantation.

Opportunity of reforestation with exotic commercial species:

Pino – Eucalipto – Melina – Jacarandá – Chuncho

FORESTRY INCENTIVES PROGRAM

The first 4 years

Natural and legal persons:

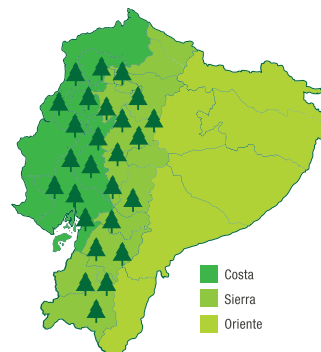

- Up to 75% of establishment cost.
- Up to 75% of maintenance of plantation.

Associations, productive cooperatives and communes

- Up to 100% of incentive establishment and maintenance.

BUILDING INFRASTRUCTURE

Ministerio
del Desarrollo
Urbano y Vivienda

YACHAY
CIUDAD DEL CONOCIMIENTO

Servicio de
Gestión Inmobiliaria
del Sector Público

Building sector aims to contribute to the national infrastructure development through the projects described in the following pages to guarantee a National System of Human Settlements. For instance, the Public Company for Housing aims to:

- Develop a forest plantation with 3 endemic forest species: Balsa, Salita, and Andiroba.
 - Reduce the national housing deficit in the social housing segment.
- Increase housing supply in order to correct market failures in the segment social and public housing.

In return, Government supports the development of real estate projects through:

- Finance of public housing up to \$ 70,000.
- Lower interest rates that range between 4.88 % and 6 % (Pacific Bank, Social Security Institute Bank).
- Bonus towards down-payment for first-time home buyers (Ministry of Urban Development and Housing).

Social housing plan

Project Description:

- Property area: 310.000 m²;
- Housing capacity: 2,248 units, total living area: 138.715 m².
- Design and construction of 3 types of homes with living areas projected at 54 m², 63 m², and 72 m², and 1.413 parking spaces.
- The referential retail price of the square meter for sale is \$645 in a consolidated area of Quito.

Objective: Housing plan that includes community facilities, green areas and paved roads for the development of a peripheral urban area.

Estimated investment:

USD 82.4 MM.

Type of investment:

Direct under a Public-Private Strategic Alliance.

Location:

Quito, Provincia of Pichincha.

Managment type:

The Government participates with the land in a Public-Private Alliance.

LA BETANIA

Social housing plan

Project Description:

- Property area: 205.000 m².
- Housing capacity: 1,263 units.
- Total living area: 70.086 m² on 12.3 acres.
- Located in a new area of expansion in southeast Quito.
- Design and construction of 3 types of homes with areas projected at 51 m², 58 m² and 64 m², and 769 parking spaces.
- The referential retail price of the square meter for sale is \$590.

Objective: Housing plan that includes community facilities, green areas, and paved street network for a peripheral urban area.

Estimated investment:

USD 37.2 MM.

Type of investment:

Direct under a Public-Private Strategic Alliance.

Location:

Alangasi, Province of Pichincha.

Management type:

The Government participates with the land in a Public-Private Alliance.

LA VICTORIA

Urban and social housing plan

Project Description:

- Property area: 138,000 m², includes 7 blocks of flats.
- Urban plan network approved in 2014.
- Urban municipal permit no. 272 in 2012.
- Located in a consolidated area in northwest Quito.
- Living areas: 53 m², 61 m², 69 m², and 696 parking spaces.
- The referential retail price of the square meter for sale is \$754.

Objective: Urban development project that includes facilities, green areas and paved streets for the urban sector of the capital.

Estimated investment:

USD 52.5 MM.

Type of investment:

Direct under a Public-Private Strategic Alliance.

Location:

Quito, Province of Pichincha.

Management type:

The Government participates with the land in a Public-Private Alliance.

NINALLACTA

Block X: Social housing plan

Project Description:

- Area: 6.086,02 m² to build 141 residential units.
- Access to basic utilities.
- Close to facilities such as bus terminal Quitumbe.
- Located in a consolidated sector to the South of the city of Quito.
- The property is located on Marshal Sucre Ave. main city road.

Objective: Housing and green area development in an urban sector of Quito.

Estimated investment:

USD 4.4 MM.

Type of investment:

Direct under a Public-Private Strategic Alliance.

Location:

Quito, Province of Pichincha

Management type:

The Government participates with the land in a Public-Private Alliance.

EL ROSARIO

Public housing plan

Description of the project:

- Located on the Northern end of Quito's former airport.
- Design and construction of 515 housing units in 2.02 hectares of usable area. The total sellable area is 27,732 m².
- There are 3 types of houses with areas projected at 52 m², 57 m² and 64 m², with 279 parking spaces.
- The referential retail price of the square meter for sale is \$620.

Objective: Housing plan that includes community facilities, green areas and paved streets in an area of urban expansion.

Estimated investment:

USD 15.2 MM.

Type of investment:

Direct under a Public-Private Strategic Alliance.

Location:

Quito, Province of Pichincha.

Management type:

The Government participates with the land in a Public-Private Alliance.

SAN RAFAEL

Social housing plan

Project Description:

- Property area: 205.000 m².

Direct under an Strategic Alliance.

Location:

Urcuquí, Province of Imbabura Knowledge Zone.

Implementation model:

Public-Private Partnership; concession for 20 years (renewable).

EL ROSARIO – PHASE 2

Construction, management, operation, and maintenance of thirteen 5-story buildings for mixed use.

Project Description:

- Area: 20,000 m2 of construction for residential and commercial use.
- Time for project implementation: 1 year.
- The buildings will have commercial premises on the ground floor and apartments of one, two and three bedrooms and 22 houses.
- Definitive studies of the project available.

Objective: Satisfy the demands of the increasing population moving to the City of Knowledge.

Estimated investment:

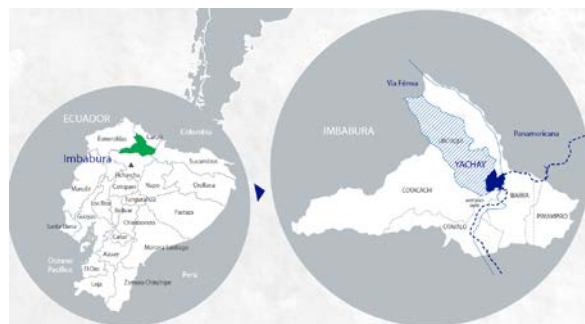

USD 10.3 MM.

Type of investment:

Direct under an Strategic Alliance.

Location:

Urcuquí, Province of Imbabura Knowledge Zone.

Implementation model:

Public-Private Partnership; concession for 20 years (renewable).

LA LECHERÍA

Construction, management, operation, and maintenance of a 6-story buildings for mixed use in a residential area.

Project description:

- Area: 169,421 m² of construction for residential, commercial and office space.
- Housing units represent 40% of the project.
- Time for project completion: 1 year.
- Basic studies of the project available.

Objective:

To satisfy the demands of an increasing population moving to the City of Knowledge.

Estimated investment:

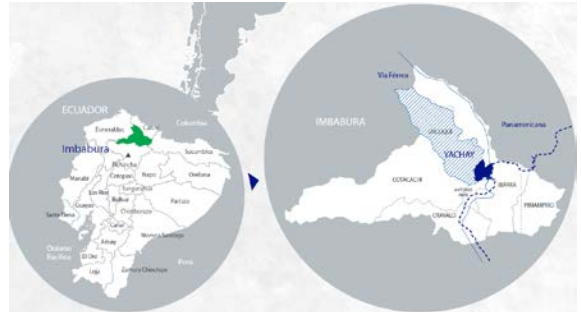

USD 93.0 MM.

Type of investment:

Direct under an Strategic Alliance.

Location:

Urcuquí, Province of Imbabura Knowledge Zone.

Implementation model:

Public-Private Partnership; concession for 20 years (renewable).

EL ROSARIO – PHASE 3, 4, AND 5

Construction, management, operation, and maintenance of 3 and 6-story buildings for mixed use.

Project description:

- 205,664 m² of construction for residential, commercial and office use.
- Time for project completion: 1 year.
- Housing represents 80% of the project.
- Basic studies of the project available.

Objective: To satisfy the demands of an increasing population moving to the City of Knowledge.

Estimated investment:

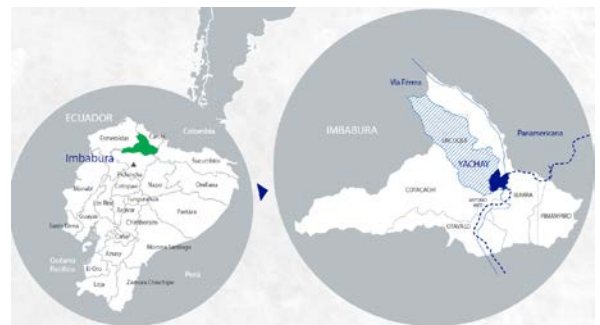

USD 113.0 MM.

Type of investment:

Direct, under and Strategic Alliance.

Location:

Urcuquí, Province of Imbabura Knowledge Zone.

Implementation model:

Public-Private Partnership; concession for 20 years (renewable).

RETAIL SHOPPING CENTER SYSTEM

Reorganization, improvement, construction and inclusion of a new retail shopping center system.

Location:

Portoviejo, Province of Manabí.

Project description:

- Construction of two retail shopping centers in Portoviejo County.
- The final designs will be ready by the end of the year 2016.

Objective:

Allow informal traders to have decent work opportunities and sustainable growth through the implementations of two retail shopping centers with 900 stores, underground parking and a nursery.

Implementation model:

Public Private Partnership.

Estimated investment:

USD 22.9 MM.

Investment model:

Strategic Alliance

COMMERCIALIZATION SYSTEM FOR RETAIL MARKETS

Construction, implementation and administration of a new commercialization system for the retail markets.

Location:

Province of Manabí, canton Portoviejo.

Project description:

- Implementation of 2 retail markets in the Portoviejo County.
- There is already a feasibility design and the final designs will be ready by the end of 2016.
- The new markets will have a network of complementary systems (financial, pharmaceutical, food, among others) through a concession system.

Objective:

To implement the new market commercialization system in Portoviejo, beginning with the construction of 2 retail markets.

Estimated investment:

USD 24.8 MM.

Investment model:

Strategic Alliance

Implementation model:

Public Private Partnership.
