

AGRO MALL

" 13 " MAY 2017

№ 0211

Hereby, we inform you that the first unit of the most modern sales complex of food commodities of the republic "AGRO MALL" agrocomplex has been launched in Baku since March 19, 2017.

The complex mainly consists of 4 parts:

Pavilion intended for the manufacturing companies of the country.

Retail merchandising areas intended for the regions of Azerbaijan.

International pavilions intended for the world countries.

Areas intended for the wholesale business.

The complex has been built in accordance with the "farmers market" project existing in Europe.

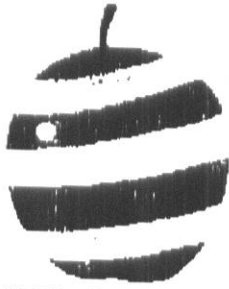

The complex situated near the city center, provided with high-capacity refrigerators and other warehouses, encompasses main foodstuff manufacturers of the republic, each representing their exhibition sales activities on pavilions.

There are also areas dedicated to "International pavilions" in the complex, which give an opportunity to foreign businessmen to be represented in our country.

Main goal of the "AGRO MALL" project is to integrate manufacturers of agricultural products and other food commodities as an association by gathering them together in one place, to provide their entry into foreign countries as well as to promote the products of foreign countries in our country by cooperating with them, to organize sale of the imported goods.

In the maintenance of this project, it's expected to create 81 such complexes in the country.

Pişəvəri küç. 2A Alatava 26,
3mk dairəsinin yaxınlığı,
Bakı, Azərbaycan

We see the format of cooperation with the product manufacturers of your country as following:

There are exhibition sales pavilions allocated for your country in the complex (pavilion area will be formed whichever you prefer). Manufacturing companies of your country can place samples of their products at the pavilion to promote them and we can make consignment contract in order to organize an exclusive sale of these products (details of the contract will be agreed during the negotiations). Products we want to import may be food, agricultural, decorative plants, trucks, veterinary medicines, agrochemical products and etc. Moreover, we can suggest you areas for cafes, restaurants, pubs in order to promote your national cuisine.

In case if your company would be interested in products manufactured in our company, we can discuss the opportunity of exchange those products to food and nonfood commodities.

Futher, in case of allocation of special areas in your country, we can discuss the issue regarding construction of agrocomplexes on those areas and issues of cooperation with investors from this perspective.

In pursuing these aims you're kindly asked to submit the list of your importers and exporters, functioning in your country and interested in cooperation with Azerbaijan,

to assist us in establishment relations and high-level cooperation.
