The Food and Drug Administration (FDA), Ministry of Public Health, Thailand, presents its compliments to all embassies in Bangkok and has the honor to inform you that, in accordance with Thailand's ongoing efforts to enhance public services, the FDA has developed and launched a fully operational electronic system for the issuance of electronic certificates (e-Certificates) for health products under regulation, including medicines, food, medical devices, cosmetics, hazardous substances, narcotic drugs, psychotropic substances, and herbal products.

We are pleased to announce that the e-Certificate system, along with the amended sample certificate format, will officially take effect on May 1, 2025. A comprehensive list of e-Certificates and their corresponding sample formats can be accessed via en.fda.moph.go.th/entrepreneurs-e-cer/category/sample. Additionally, a verification system is available for stakeholders to authenticate issued certificates, which can be accessed via thfda.cc/ECER. Should you have any inquiries, please do not hesitate to contact us via email at interfda@fda.moph.go.th.

The Food and Drug Administration (FDA), Ministry of Public Health, Thailand, avails itself of this opportunity to renew to all embassies in Bangkok the assurances of its highest consideration and sincerely appreciates your esteemed support in disseminating this important information to the relevant stakeholders.
