20 YEARS OF CONNECTING BUSINESSES

The Abuja International Trade Fair (AITF) is a prestigious multi-sectoral event in Nigeria that continues to expand its scope and influence. As one of the largest trade platforms, it offers domestic and international exhibitors an opportunity to showcase new product lines, access untapped markets, forge invaluable business relationships, unveil innovative products, and stay ahead of emerging trends. Powered by the Abuja Chamber of Commerce and Industries, the AITF is dedicated to connecting businesses with lucrative trade and investment prospects within the country.

This trade platform cultivates a neutral and inclusive environment, welcoming companies, trade associations, government investment/export promotion agencies, institutions, and private sector organizations. It serves as a catalyst for establishing fruitful investment and trade relations with new business partners. With Abuja's advantageous location as the nation's capital and its convenient one-hour flight from Lagos, coupled with accessibility to all geopolitical zones, hosting a significant number of international and local participants becomes both strategic and secure.

ABUJA CHAMBER OF COMMERCE AND INDUSTRY

The AITF, driven by the Abuja Chamber of Commerce and Industries, is passionately committed to serving and supporting its vast network of over 2500 member companies. Our mission is to cultivate an empowering business environment by fostering robust networks, enhancing organizational capabilities, and facilitating impactful international trade missions. Join us in unlocking boundless opportunities for growth and success.

ABUJA TRADE CENTER

The Abuja Trade Center serves as one of the four prominent centers within the ACCI, playing a pivotal role in the management of various trade-related activities and events on a daily basis. This includes the organization of trade fairs, facilitating business-to-business (B2B) and business-to-government (B2G) interactions, coordinating trade missions, and fostering an enduring framework for cooperation between the Chamber and its esteemed partners.

BRIEF

As Nigeria's economy continues to grow, the need to ensure that this growth is sustainable becomes increasingly important. Inefficient tax systems, unsustainable consumption patterns, and inadequate incentives can impact ease of doing and discourage investments. The 2025 AITF provides an opportunity to address these challenges by exploring how taxation, consumption, adequate incentives, and can be aligned to promote sustainability.

This theme is particularly relevant as Nigeria, along with other developing nations, seek to meet its commitments to its populace by ensuring a sustainable and upward economic trajectory. By focusing on sustainable consumption, the fair will also address SDG 12 (Responsible Consumption and Production), while the discussion on incentives and taxation will contribute to SDG 13 (Climate Action) and SDG 8 (Decent Work and Economic Growth).

Sustainability – Consumption, Incentives, and Taxation, as the theme of this year's fair, provides the government, policy makers and business leaders the platform to discuss possible solutions aimed at addressing consumption, incentives and the role of taxation in promoting economic growth. The fair will contribute to shaping Nigeria's economic and environmental future through collaboration with government, businesses and civil society in our collective journey to a prosperous future.
